

## **RESOLUTION NO. CR-04-02**

### **A RESOLUTION EXPRESSING THE SUPPORT OF GROVE CITY FOR THE INCORPORATION OF THE COLUMBUS METROPOLITAN FACILITIES PLAN UPDATE INTO ALL RELEVANT SECTION 208 AREA WIDE WASTE TREATMENT PLANS AND TO AMEND THE OHIO WATER QUALITY MANAGEMENT PLAN TO REFLECT THIS INCORPORATION**

---

WHEREAS, the Columbus Metropolitan Facilities Plan Update addresses regional wastewater management needs through 2020 for the largely urban and suburban Columbus Metropolitan Facilities Planning Area (MFPA) and has a goal of protecting our water quality while meeting the demands of regional growth; and

WHEREAS, extensive public finds and time were expended over a two (2) year period to update the Columbus Plan, including seeking the input of stakeholders throughout Franklin County and receiving the support of 15 municipalities representing 80% of the population of the MFPA for the final plan update, as well as, the support of MORPC; and

WHEREAS, the existing centralized sewer systems have the capacity to treat wastewater throughout the area with an area wide waste treatment management that has been recognized by Congress under the terms of the Clean Water Act to be the environmentally superior method of wastewater treatment; and

WHEREAS, Grove City has strived to be environmentally friendly in managing its sewer system by being a party to a centralized sewer system for over 35 years managed by the City of Columbus; and

WHEREAS, Grove City has managed development and has grown for the benefit of our citizens; and

WHEREAS, alternative wastewater treatment systems which dispose of treated wastewater by a method other than a direct discharge to surface water under the authority of a National Pollutant Discharge Elimination System Permit distort and impede the development of the existing centralized sewer systems and are banned under the Columbus Plan Update; and

WHEREAS, alternative wastewater treatment systems are not environmentally suited to much of the land inside the MFPA and are not regulated by the Ohio EPA other than the initial permit to Install; and

WHEREAS, alternative wastewater treatment systems are inappropriate to urban areas and could promote the rapid conversion of remaining rural and agricultural land into developments of subdivisions at suburban densities, a practice in direct contrast to good land use planning; and

WHEREAS, the Ohio EPA is charged with the responsibility of protecting the environment and following the provisions of the Clean Water Act and the City of Grove City by this resolution strongly urges the Ohio EPA to support the planning decisions made by the overwhelming majority of jurisdictions that united collaboratively to develop a consensus; and

WHEREAS, the future environmental quality of Central Ohio will be directly impacted by the Ohio EPA's decision in this area.

NOW, THEREFORE BE IT RESOLVED BY THE COUNCIL OF THE CITY OF GROVE CITY, STATE OF OHIO, THAT:

SECTION 1. This Council does hereby urge the Director of the Ohio Environmental Protection Agency to incorporate the Columbus Metropolitan Facilities Plan Update into all relevant Section 208 Area Wide Waste treatment plans and to amend Ohio's water quality management plan within the earliest possible time frame to reflect this incorporation.

SECTION 2. The Clerk of Council is hereby directed to forward certified copies of this Resolution to Governor Bob Taft, State Senator Priscilla Mead, State Representative Amy Salerno and Larry Wolpert, EPA Director Christopher Jones and other central Ohio State Senate and House members.

SECTION 3. This resolution shall take effect at the earliest opportunity allowed by law.

Passed: 1-22-02  
Effective: 1-22-02

Attest:

  
Maria C. Klemack, President of Council

  
Cheryl L. Grossman, Mayor

  
Tami K. Kelly, CMC/AEE, Clerk of Council

I Certify that this resolution is correct as to form.

  
Thomas R. Clark, Director of Law
